OMSING ANKUSHSING RAJPUT

Software Developer

Java · Spring Boot · Node.js · React.js · MySQL

omsingrajput05@gmail.com | +91 70387 06978 | GitHub | LinkedIn

Professional Summary

Backend-focused Software Developer with a B.E. in Computer Science. Builds secure web applications and REST APIs with Java, Spring Boot, Node.js, and Express.js, using MongoDB, MySQL, JWT, and role-based access. Uses Git, Docker, and AWS to ship features and debug them in production.

Technical Skills

1	**Languages**	Java, JavaScript (ES6+), Python, SQL
2	**Web & Frontend**	React.js, HTML5, CSS3, Tailwind CSS
3	**Backend & Databases**	Spring Boot, Node.js, Express.js, REST APIs, Spring Security, Spring Data JPA, Hibernate, MongoDB, MySQL
4	**Tools, Cloud & Practices**	Git, GitHub, Postman, Docker, Kubernetes, AWS, Maven, JWT, RBAC

Professional Experience

1 **Software Developer Intern, SevenMentor & Training Pvt. Ltd., Pune**

- Contributed to **ProofNexa AI**, an AI-powered recruitment and career management system, on the development team.
- Developed backend features with Java, Spring Boot, Spring Security, Spring Data JPA, and Hibernate, and exposed REST APIs backed by MySQL and H2.
- Built React.js screens with JavaScript, HTML5, and CSS3 and connected them to the backend APIs.
- Applied JWT authentication and integrated the Google Gemini API for AI-assisted recruitment and career workflows.
- Used Apache Maven, Git, and GitHub for builds and version control.

2 **Software Developer Intern, Triroop Techconsult Pvt. Ltd.**

- Completed a software developer internship at Triroop Techconsult Pvt. Ltd. as a Software Developer Intern.
- Worked on software development tasks through the internship, with the certificate noting technical proficiency, sound judgement, and consistent delivery.

Projects

1 QuickBite — Full-Stack Food Delivery Live | GitHub — Mar 2026

- Architected and deployed a MERN food delivery platform with 20+ REST endpoints, JWT authentication, and role-based access for customers, riders, and admins.
- Built real-time GPS order tracking with Leaflet.js, including animated rider movement, automatic location detection, and 15-second polling.
- Built an admin dashboard with Chart.js analytics, order status management, menu CRUD, and CSV export.
- Added coupons, loyalty points, multi-mode payments, scheduled delivery, cart management, and food recommendations, plus PWA support and dark mode.

2 Smart Healthcare Management System Live | GitHub — Apr 2025

- Developed a healthcare platform for patient records, appointment scheduling, and doctor profiles, with user authentication and authorization.
